

Datascan 7000 United Kingdom Repair, Calibration and Upgrade Price List

All prices Sterling £, ex Delivery

CLASS A REPAIR SERVICE:

Module will be generally repaired and re despatched within three full working days of order receipt.

DATASCAN Warranty is 3 years as standard .

The calibration of the module is not covered unless the unit is returned after the recommended interval for checking/adjusting.

Although Datascan 7000 units are extremely stable and reliable, we do recommend the calibration is checked and adjusted if necessary on a 12 monthly basis to maintain published specifications.

If system down-time is a problem, we also offer an On-Site calibration service.
Please contact our support department for more information.

PRODUCT NUMBER	Calibration 9+ modules (same type)	Calibration 4-8 modules (same type)	Calibration 1 Module	CLASS A Repair Price (£)
<i>Measurement processors</i>		A calibration certificate is provided with each re-calibration.
